Mr. Thomas C. Ruffin, of Chestnut
Hill, is chairman of the Hotel Committee and has carefully considered the
matter of supplying hotel accommodations for all comers. In this respect Richmond offers a wide range. The hotels will be at the service of the delegates and in addition to these the committee can secure lodgings for fully 500 men in comfortable homes within convenient distance of the convention hall. These quarters will be secured by personal canvass and will be convention in the convenient distance of the carefully inspected by the members of the

committee.

The attendance will probably be large.
Each chapter will send one delegate for each ten of its members, and one for the chapter at large. Only chapters in good standing are entitled to send delegates, and only delegates will be allowed vote, but there is very little voting and the freedom of the floor at all confer-ence sessions is extended to every man present. In addition to this every member present. In addition to this every member in every chapter will be welcomed to Richmond and will be given a part and place in the convention. A large party of delegates from the West is expected.

And in this respect they will find ample entertainment, In churches, both of historical and structural interest, in beautiful buildings and generally in spots of interest to visitors. Richmond will prove equal to the occasion.

equal to the occasion.

Perhaps as interesting a spot as is to be found, and one that will undoubtedly received marked attention, is the beautiful Hollywood Cemetery, where the citizens of Richmond now find their last resting place. Here lie the remains of Monroe and Tyler, of John Randolph, lately removed from "Roanoke;" of Matthew F. Maury, who laid the Atlantic cable; of Jefferson Davis, Pickett, Stuart, the Pergams, and a host of others who fell in battle, and to whom a monument has been erected by their courses.

One grain of the active principle in Stu-nrt's Dyspepsia Tablets will digest 3,000 art's Dyspepsia Tablets will digest 3,000 grains of meat, eggs or other wholesoms food, and this claim has been proven by actual experiment which anyone can perform for himself in the following manner: Cut hard boiled eggs into very small pieces as it would be if masticated, place the egg and two or three of the tablets in a bottle or jar containing warm water heated to 95 degrees (the temperature of the body) and keep it at this temperature for three and one half hours, at the end of which time the egg will be as completely digest.

and one half hours, at the end of which time the egg will be as completely digest-ed as it would have been in the healthy stomach of a hungry boy.

The point of this experiment is that what Stuart's Dyspepsia Tablets will do to the egg in the bottle it will do to the egg or meat in the stomach and nothing class will rest and invigorate the stomach to safety and effectually. Even a little so safely and effectually. Even a little child can take Stuart's Tablets with safety and benefit if its digestion is weak and the thousands of cares accomplished by their regular daily use are easily explain-

their regular daily use are easily explained when it is understood that they are composed of vegetable essences, aspetic pepsin, diastase and Golden Scal, which mingles with the food and digest it thoroughly, giving the overworked stomach a chance to recuperate.

Dieting never cures dyspepsia, neither do pills and cathartic medicines, which simply irritate and inflame the intestices. When enough food is caten and promptly digested there will be no constipation, nor in fact will there be disease of any kind, because good digestion means good health in every organ.
